Congressional Staff Receive Update on EPA Activities in Dimock, PA - On February 27, 2012, at the request of House Energy and Commerce (majority) and Senate Environment and Public Works (minority) staff, a follow-up to the February 23, 2012 briefing on activities regarding the groundwater investigation in Dimock, Pennsylvania was held. House Science and Technology (majority) staff also participated. In addition to requesting a brief background they had questions about the levels of substances found, as well as whether it was typical for EPA to act when the Pennsylvania Department of Environmental Protection had not fully reviewed the spill report data. House Science and Technology staff also requested a copy of the sampling plan, which will be provided. The Office of Enforcement and Compliance Assistance and the Office of Solid Waste and Emergency Response also participated. (Jennie Saxe, 215-814-5806; Pamela Janifer, 202-564-6969)

~~Lindbergh, Rick USPC. Worked with Mike Frankland, OPA to finalize a message to send to A. L. Leger. See my email.~~
